NEW WEBSITE IS LAUNCHED: APRA has a new and improved website

Arkansas Paranormal Research Association rebuilt its website to be the most informative paranormal website in the state. We try to cover topics that will help anyone answer questions on unusual or frightening occurrences in their life. We will continually be updating the site with more information as time permits or as requested.

We also hope the website can serve as an educational tool for anyone who visits it. Our main purpose is to help people and serve as a support system.
